

EDUCATION TECHNOLOGY CANDIDATE QUESTIONNAIRE

1. Do you believe our schools are equipped currently with the physical infrastructure, up-to-date digital content and tools for learning to adequately prepare our students for the challenges of the 21st century? If not, what kind of changes would you like to see in federal policy or even school policies to ensure that all schools are modern learning environments?
2. What is your vision for broadband connectivity to schools in this country? What policies would you change or put in place to accomplish your goals?
3. Do you believe that educational technology has an important role to play in our education system to ensure that our students are prepared for the 21st Century global workforce?
4. Would you support federal policies that provide resources using technology as a tool for teaching and learning core curricular subjects like math, science, social studies, and language arts?
5. Do you believe it is important that America's teachers receive training in using technology and integrating it seamlessly into their curricula? Should technology training be considered a requisite for a highly qualified teacher?
